1 Identification

· Product identifier

- Trade name: LOR C Series Resists
- **Product number:** G713708, G713711, G713713, G713714, G713716 • **Application of the substance / the mixture** Photoresist
- Details of the supplier of the safety data sheet • Manufacturer/Supplier:
- Kayaku Advanced Materials, Inc. 200 Flanders Road Westborough, MA 01581 Tel: (617) 965-5511 Fax: (617) 965-5818
- Information department: Product Safety Email: productsafety@kayakuAM.com
 Emergency telephone number: Kayaku Advanced Materials : 617-965-5511 Chemtrec USA Emergency : 800-424-9300
- Chemtrec International Emergency: 703-527-3887

2 Hazard(s) identification

Classification of the substance or mi. GHS02 Flame	xture
Flammable Liquids 3	H226 Flammable liquid and vapor.
GHS08 Health hazard	
Toxic to Reproduction 1B	H360 May damage fertility or the unborn child.
GHS05 Corrosion	
Eye Damage 1	H318 Causes serious eye damage.
GHS07	
Skin Irrititation 2	H315 Causes skin irritation.
Specific Target Organ Toxicity - Sing	le Exposure 3 H336 May cause drowsiness or dizziness.
Label elements GHS label elements The product is ci	lassified and labeled according to the Globally Harmonized System (GHS). (Contd. on page

3 Composition/information on ingredients

· Chemical characterization: Mixtures

• Description: Mixture of the substances listed below with nonhazardous additions.

120-92-3	Cyclopentanone	40-60%
	🐼 Flammable Liquids 3, H226; 🗘 Skin Irrititation 2, H315; Eye Irritation 2A, H319	· -
96-48-0	gamma-Butyrolactone	25-50%
102322-80-5	Polyaliphatic imide copolymer Skin Irrititation 2, H315; Eye Irritation 2A, H319	5-20%
97-99-4	Tetrahydrofurfuryl alcohol Toxic to Reproduction 1B, H360;	1-5%
	Proprietary Dye B	<1%

4 First-aid measures

- · Description of first aid measures
- General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

• After inhalation:

Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.

- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact:

Wash eyes immediately with a large amount of water or normal saline, occasionally lifting upper and lower eye lids until no evidence of chemical remains (about 20 minutes). Remove contact lenses if present and easy to remove. Seek immediate medical attention.

· After swallowing:

Do not induce vomiting unless instructed to do so by a physician. Wash out mouth with water and keep person at rest. Seek immediate medical attention.

• Information for doctor:

• *Most important symptoms and effects, both acute and delayed* No further relevant information available. • *Indication of any immediate medical attention and special treatment needed* Treat symptomatically.

5 Fire-fighting measures

- · Extinguishing media
- Suitable extinguishing agents: Alcohol resistant foam Fire-extinguishing powder Carbon dioxide

(Contd. on page 4)

• For safety reasons unsuitable extinguishing agents: Water with full jet

Water Will

- Special hazards arising from the substance or mixture No further relevant information available.
- Advice for firefighters
- Protective equipment: Wear SCBA.

6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources
 Environmental precautions: Do not allow to enter sewers/ surface or ground water.
 Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Ensure adequate ventilation.

Do not flush with water or aqueous cleansing agents

Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

· Handling:

- Precautions for safe handling
 Ensure good ventilation/exhaust at the workplace.
 Prevent formation of aerosols.
 Use only under yellow light
 Information about protection against explosions and fires:
- Keep ignition sources away Do not smoke. Protect against electrostatic charges.
- \cdot Conditions for safe storage, including any incompatibilities
- Storage:
- **Requirements to be met by storerooms and containers:** Store in a cool location.

Store in inert atmosphere or keep well sealed to prevent the formation of peroxides and other oxidation products. • Information about storage in one common storage facility:

- Do not store together with alkalis (caustic solutions). Do not store together with oxidizing and acidic materials.
- Further information about storage conditions:
- Keep container well-sealed in cool, dry location.
- Protect from heat and direct sunlight.
- Store receptacle in a well ventilated area.
- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

• Additional information about design of technical systems: No further data; see item 7.

- · Control parameters
- · Components with limit values that require monitoring at the workplace:

97-99-4 Tetrahydrofurfuryl alcohol

WEEL 0.5 ppm

• *Additional information:* The lists that were valid during the creation were used as basis.

- · Exposure controls
- · Personal protective equipment:
- General protective and hygienic measures: Keep away from food and beverages. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.
- Respiratory equipment:
- In case of low exposure, use cartridge respirator. In case of intensive or longer exposure, use SCBA.
- · Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. • *Material of gloves Nitrile rubber, NBR*

- · Penetration time of glove material Contact glove manufacture for break-through time.
- Eye protection:

Tightly sealed goggles

10 Stability and reactivity

- · Reactivity No further relevant information available.
- · Chemical stability Stable
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- Conditions to avoid Heat, flames and sparks. Extremes of temperature and direct sunlight. Contact with incompatible materials.
- · Incompatible materials: Strong Oxidizing Agents, Strong Acids, Strong Bases
- Hazardous decomposition products: Carbon monoxide and carbon dioxide
