1 Identification

· Product identifier

- · Trade name: <u>BT-101 Barium Titanate Dielectric</u>
- · Application of the substance / the mixture Functional electronic screen printing ink
- Details of the supplier of the safety data sheet

• Manufacturer/Supplier: Kayaku Advanced Materials, Inc. 200 Flanders Road Westborough, MA 01581 Tel: (617) 965-5511 Fax: (617) 965-5818

- Information department: Product Safety Email: productsafety@kayakuAM.com • Emergency telephone number:
- Kayaku Advanced Materials : 617-965-5511 Chemtrec USA Emergency : 800-424-9300 Chemtrec International Emergency : 703-527-3887

2 Hazard(s) identification

· Classification of the substance or mixture

GHS08 Health hazard

Carc. 2

H351 Suspected of causing cancer.

GHS07

Acute Tox. 4 H302 Harmful if swallowed. Acute Tox. 4 H332 Harmful if inhaled.

Eye Irrit. 2A H319 Causes serious eye irritation.

· Label elements

• *GHS label elements* The product is classified and labeled according to the Globally Harmonized System (GHS). • *Hazard pictograms*

· Signal word Warning

Hazard-determining components of labeling: Barium titanium trioxide Titanium dioxide
Hazard statements H302+H332 Harmful if swallowed or if inhaled. H319 Causes serious eye irritation. H351 Suspected of causing cancer. Reviewed on 03/31/2020

3 Composition/information on ingredients

· Chemical characterization: Mixtures

• Description: Mixture of the substances listed below with nonhazardous additions.

| · Dangerous | - | | |
|-------------|---|--|--------|
| 112-15-2 | Diethylene glycol monoethyl ether acetate | 𝕸 Eye Irrit. 2A, H319 | 25-50% |
| 12047-27-7 | Barium titanium trioxide | <i> ♦ Acute Tox. 4, H302; Acute Tox. 4, H332 </i> | 25-50% |
| 13463-67-7 | Titanium dioxide | 🚸 Carc. 2, H351 | 10-25% |
| | Acrylic Resin | � STOT SE 3, H335 | 10-25% |

4 First-aid measures

· Description of first aid measures

• General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

Immediately remove any clothing soiled by the product.

(Contd. on page 3)

Printing date 03/31/2020

Reviewed on 03/31/2020

Trade name: BT-101 Barium Titanate Dielectric

(Contd. of page 2)

• After inhalation:

Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.

- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact:

Wash eyes immediately with a large amount of water or normal saline, occasionally lifting upper and lower eye lids until no evidence of chemical remains (about 20 minutes). Remove contact lenses if present and easy to remove. Seek immediate medical attention.

- After swallowing: Do not induce vomiting; immediately call a doctor.
- Information for doctor:
- · Most important symptoms and effects, both acute and delayed No further relevant information available.
- · Indication of any immediate medical attention and special treatment needed Treat symptomatically.

5 Fire-fighting measures

- · Extinguishing media
- Suitable extinguishing agents:
- Alcohol resistant foam
- Fire-extinguishing powder
- ABC powder
- · For safety reasons unsuitable extinguishing agents: Water with full jet
- · Special hazards arising from the substance or mixture No further relevant information available.
- Advice for firefighters
- Protective equipment: Wear SCBA.

6 Accidental release measures

| · Personal pr | ecautions, protective equipment and emergency procedures | |
|---------------|--|--------------------|
| | tive equipment. Keep unprotected persons away. | |
| | uate ventilation | |
| Keep away f | from ignition sources | |
| · Environmen | ntal precautions: Do not allow to enter sewers/ surface or ground water. | |

7 Handling and storage

· Handling:

- *Precautions for safe handling* Ensure good ventilation/exhaust at the workplace. Prevent formation of aerosols.
- Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect against electrostatic charges.
- Conditions for safe storage, including any incompatibilities
- · Storage:

• Requirements to be met by storerooms and containers: No special requirements.

- · Information about storage in one common storage facility:
- Do not store together with alkalis (caustic solutions). Do not store together with oxidizing and acidic materials.
- · Further information about storage conditions:
- Keep container well-sealed in cool, dry location.
- Protect from heat and direct sunlight.
- Store receptacle in a well ventilated area.
- · Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

• Additional information about design of technical systems: No further data; see item 7.

- · Control parameters
- Components with limit values that require monitoring at the workplace:

The following constituent is the only constituent of the product which has a PEL, TLV or other recommended exposure limit.

At this time, the other constituents have no known exposure limits.

| | T |
|--------|---|
| 1204 | 7-27-7 Barium titanium trioxide |
| PEL | Long-term value: 0.5 mg/m ³ |
| | as Ba |
| REL | Long-term value: 0.5 mg/m ³ |
| | as Ba |
| TLV | Long-term value: 0.5 mg/m ³ |
| | as Ba |

· Respiratory equipment:

In case of low exposure, use cartridge respirator. In case of intensive or longer exposure, use SCBA. • **Protection of hands:**

Protective gloves

- *The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Material of gloves Nitrile rubber, NBR*
- · Penetration time of glove material Contact glove manufacture for break-through time.
- Eye protection:

Tightly sealed goggles

9 Physical and chemical properties

| Appearance: | | |

10 Stability and reactivity

- · Reactivity No further relevant information available.
- · Chemical stability Stable
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- · Conditions to avoid

Heat, flames and sparks. Extremes of temperature and direct sunlight. Contact with incompatible materials.

- · Incompatible materials: Strong Oxidizing Agents, Strong Acids, Strong Bases
- Hazardous decomposition products: Carbon monoxide and carbon dioxide

11 Toxicological information

- · Information on toxicological effects
- Acute toxicity:
- · Primary irritant effect:
- on the skin: No irritant effect.
- on the eye: Irritating effect.
- · Sensitization: No sensitizing effects known.
- Additional toxicological information:

The product shows the following dangers according to internally approved calculation methods for preparations: Harmful

Irritant

· Carcinogenic categories

· IARC (International Agency for Research on Cancer)

13463-67-7 Titanium dioxide

· NTP (National Toxicology Program)

None of the ingredients are listed.

· OSHA-Ca (Occupational Safety & Health Administration)

None of the ingredients are listed.

12 Ecological information

- · Toxicity
- · Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behavior in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- *Mobility in soil* No further relevant information available.
- Additional ecological information:
- · General notes:
- Water hazard class 1 (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system. • **Results of PBT and vPvB assessment**

- *PBT*: Not applicable.
- **vPvB:** Not applicable.
- · Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods

• Recommendation:

Must not be disposed of as regular garbage/trash. Do not allow product to reach sewage system. Disposal must be made in accordance with Federal, State, and Local regulations.

· Uncleaned packagings:

• Recommendation: Disposal must be made in accordance with Federal, State, and Local regulations.

15 Regulatory information

 \cdot Safety, health and environmental regulations/legislation specific for the substance or mixture \cdot Sara

· Section 355 (extremely hazardous substances):

None of the ingredients are listed.

• Section 313 (Specific toxic chemical listings):

112-15-2 Diethylene glycol monoethyl ether acetate

12047-27-7 Barium titanium trioxide

• TSCA (Toxic Substances Control Act): All ingredients are listed or comply with TSCA regulations.

· Proposition 65

· Chemicals known to cause cancer:

13463-67-7 Titanium dioxide

Chemicals known to cause reproductive toxicity for females:

None of the ingredients are listed.

· Chemicals known to cause reproductive toxicity for males:

None of the ingredients are listed.

Chemicals known to cause developmental toxicity:

None of the ingredients are listed.

· Carcinogenic categories

· EPA (Environmental Protection Agency)
