N-methyl-2-pyri	olidinone
Hazard stateme	
H315 Causes sk	
	rious eye irritation.
	e an allergic skin reaction.
	age fertility or the unborn child.
H400 Very toxic	
	to aquatic life with long lasting effects.
Precautionary s	
P261	Avoid breathing dust/fume/gas/mist/vapors/spray
P273	Avoid of edining dust/jume/gas/mist/vapors/spray Avoid release to the environment.
P280	
	Wear protective gloves/protective clothing/eye protection/face protection.
P301 + P310	If swallowed: Immediately call a poison center/doctor.
P302+P352	If on skin: Wash with plenty of soap and water.
P304+P341	If inhaled: If breathing is difficult, remove person to fresh air and keep comfortable for breathing.
P305+P351+P.	338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if prese
	and easy to do. Continue rinsing.
P333+P313	If skin irritation or rash occurs: Get medical advice/attention.
<i>P337+P313</i>	If eye irritation persists: Get medical advice/attention.
P403+P233	Store in a well-ventilated place. Keep container tightly closed.
P501	Dispose of contents/container in accordance with local/regional/national/internation regulations.

4 First-aid measures

· Description of first aid measures

• General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

Immediately remove any clothing soiled by the product.

• After inhalation:

Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.

- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact:

Wash eyes immediately with a large amount of water or normal saline, occasionally lifting upper and lower eye lids until no evidence of chemical remains (about 20 minutes). Remove contact lenses if present and easy to remove. Seek immediate medical attention.

• After swallowing:

Do not induce vomiting unless instructed to do so by a physician. Wash out mouth with water and keep person at rest. Seek immediate medical attention.

- · Information for doctor:
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- · Indication of any immediate medical attention and special treatment needed Treat symptomatically.

5 Fire-fighting measures

- · Extinguishing media
- Suitable extinguishing agents:

Alcohol resistant foam

- Fire-extinguishing powder
- ABC powder
- For safety reasons unsuitable extinguishing agents: Water with full jet
- · Special hazards arising from the substance or mixture No further relevant information available.
- Advice for firefighters
- Protective equipment: Wear SCBA.

6 Accidental release measures

• *Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.*

Ensure adequate ventilation	
Keep away from ignition sources	
• Environmental precautions: Do not allow to enter sewers/ surface or ground water.	
• Methods and material for containment and cleaning up:	
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).	
Ensure adequate ventilation.	
• Reference to other sections	
See Section 7 for information on safe handling.	
See Section 8 for information on personal protection equipment.	
See Section 13 for disposal information.	
Protective Action Criteria for Chemicals	
· PAC-1:	
7440-22-4 Silver	0.3 mg/m3
872-50-4 N-methyl-2-pyrrolidinone	30 ppm
577-11-7 Dioctyl sodium sulfosuccinate	5.7 mg/m3
· PAC-2:	
7440-22-4 Silver	170 mg/m3
872-50-4 N-methyl-2-pyrrolidinone	32 ppm
577-11-7 Dioctyl sodium sulfosuccinate	63 mg/m3
· PAC-3:	
7440-22-4 Silver	990 mg/m3
872-50-4 N-methyl-2-pyrrolidinone	190 ppm
577-11-7 Dioctyl sodium sulfosuccinate	380 mg/m3

7 Handling and storage

· Handling:

- **Precautions for safe handling** Ensure good ventilation/exhaust at the workplace. Prevent formation of aerosols.
- *Information of acrosols*. • *Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect against electrostatic charges.*
- · Conditions for safe storage, including any incompatibilities
- Storage:
- Requirements to be met by storerooms and containers: No special requirements.
- Information about storage in one common storage facility: Do not store together with alkalis (caustic solutions). Do not store together with oxidizing and acidic materials.
- Further information about storage conditions: Keep container well-sealed in cool, dry location. Protect from heat and direct sunlight. Store receptacle in a well ventilated area.
 Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

• Additional information about design of technical systems: No further data; see item 7.

· Control parameters

• Components with limit values that require monitoring at the workplace:

The following constituent is the only constituent of the product which has a PEL, TLV or other recommended exposure limit.

At this time, the other constituents have no known exposure limits.

872-50-4 N-methyl-2-pyrrolidinone

WEEL Long-term value: 10 ppm

Skin

· Ingredients with biological limit values:

872-50-4 N-methyl-2-pyrrolidinone

BEI 100 mg/L Medium: urine Time: end of shift Parameter: 5-Hydroxy-N-methyl-2-pyrrolidone

• Additional information: The lists that were valid during the creation were used as basis.

- · Exposure controls
- · Personal protective equipment:
- General protective and hygienic measures: Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work.
- Respiratory equipment:

In case of low exposure, use cartridge respirator. In case of intensive or longer exposure, use SCBA.

• Protection of hands:

Protective gloves

- *The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Material of gloves Nitrile rubber, NBR*
- · Penetration time of glove material Contact glove manufacture for break-through time.
- · Eye protection:

Tightly sealed goggles

10 Stability and reactivity

· *Reactivity* No further relevant information available.

- · Chemical stability
- Stable under normal use conditions Stable
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- *Conditions to avoid* Heat, flames and sparks. Extremes of temperature and direct sunlight. Contact with incompatible materials.
- · Incompatible materials: Strong Oxidizing Agents, Strong Acids, Strong Bases

11 Toxicological information

· Information on toxicological effects

• Acute toxicity:

· Primary irritant effect:

• on the skin: No irritant effect.

• on the eye: No irritating effect.

• Sensitization: Sensitization possible through skin contact.

• Additional toxicological information:

The product shows the following dangers according to internally approved calculation methods for preparations: Irritant

· Carcinogenic categories

· IARC (International Agency for Research on Cancer)

None of the ingredients are listed.

· NTP (National Toxicology Program)

None of the ingredients are listed.

· OSHA-Ca (Occupational Safety & Health Administration)

· Persistence and degradability No further relevant information available.

• Behavior in environmental systems:

· Bioaccumulative potential No further relevant information available.

• *Mobility in soil* No further relevant information available.

· Additional ecological information:

· General notes:

Water hazard class 2 (Self-assessment): hazardous for water

Do not allow product to reach ground water, water course or sewage system.

Danger to drinking water if even small quantities leak into the ground.

· Results of PBT and vPvB assessment

• **PBT:** Not applicable.

• **vPvB:** Not applicable.

• Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods

· Recommendation:

Must not be disposed of as regular garbage/trash. Do not allow product to reach sewage system. Disposal must be made in accordance with Federal, State, and Local regulations.

· Uncleaned packagings:

• Recommendation: Disposal must be made in accordance with Federal, State, and Local regulations.
